# Our Dog Friendly Hotels List

May 2, 2025

Some hotels accept dogs, with a hefty fee and banishment to a room at the back of the building. And then there are hotels that welcome them, asking for your dog's dimensions so a custom bathrobe can be waiting in the room. This list focuses on the latter. Yes, some of these are a little over the top (does any dog need wagyu delivered to them on a silver platter, or an ozone therapy session?), but dogs really are family. And as more of us travel with our pets in tow, it's nice to feel like a hotel treats them like guests in their own right.

Portrait Firenze – Dogs are spoiled with their own bathrobes, personalized harnesses and a collar with an engraved name tag. Dog sitting, walking, jogging or yoga sessions, pet spa treatments, can all be arranged, and if you want to bike with your dog along the Arno, they'll hook you up with a specially designed trailer so they can safely tag along.
